

March 08, 2002

TriaGnoSys GmbH forms to the legal Status of GmbH

Weßling – On March 8, 2002 TriaGnoSys GmbH is legally registered as private limited corporation in succession of TriaGnoSys Gbr (private corporation). It was registered at Amtsgericht München (district court) under number HRB 141647.

TriaGnoSys GmbH is completely in private property. The shareholders of TriaGnoSys GmbH, Matthias Holzbock, Axel Jahn, and Markus Werner act for the company as managing directors.

TriaGnoSys key personnel brings in the in-depth knowledge of more than 25 years of basic research, project leadership in international consortia, and networking with key contacts around the globe.

Our expertise is your benefit.

The complexity of modern communication systems needs high specialisation on the one hand, but a broad overview of various technologies on the other. TriaGnoSys' background provides both, leading to efficient solutions, innovative concepts and business-oriented applications.

TriaGnoSys business areas are:

- Consulting
- System Integration
- Contract Research
- Development of Innovative Ideas and Concepts

for

- Aeronautical Communications
- Satellite Communications
- Mobile Communications and Networks

TriaGnoSys provides expertise in many fields of modern communications, with special focus on satellite and aeronautical communications, including:

- satellite channel modelling
- medium access
- resource management

- capacity planning
- routing and transport layers
- network design and dimensioning
- interworking with UMTS, DVB/RCS, IP, ATM ...
- layer2 and 3 protocols

TriaGnoSys is committed to serve its customers with highest expertise, state-of-the-art technology and due diligence. We will enable your business with new communication concepts, not cheap but economical, not simple but brilliant.
